PREFACE TO THE THIRTY-EIGHTH VOLUME

OF THE

COPARTNERSHIP AND CORPORATION DIRECTORY.

THIS is the thirty-eighth volume published since 1849. The first volume contained 66 pages and the names of about 6,000 firms. The present volume contains 386 pages and the names of about 24,000 firms, corporations, etc., an increase of business firms, etc., of 300 per cent. in 40 years.

In a city having such varied and vast commercial and financial interests as New York, the Copartnership and Corporation Directory is as essential in its sphere as a Business or General Directory, and to many the services of the two latter could be more easily dispensed with. The aim of this volume is to furnish to Lawyers, Bankers, Brokers, Insurance Companies, Trust Companies, Merchants, Capitalists, and Investors, the following information, viz.: To give the correct firm or corporate name, the names of the members of each firm, both general and special, where there are limited firms the names of the special partners and amount of special capital, the term of its duration; the names of the various Banks, Insurance, and Trust Companies, their Capital, Officers, and Directors; the Capital, Officers, and Directors of the numerous Manufacturing and Mercantile Companies; the various Trade names and who are the proprietors thereof, and finally, grouped by themselves at the last of the work, the names of the foreign houses located in New York, and giving in connection with each the location of the Home Office, the name of its New York representative, and the location of its New York Office; the whole arranged in alphabetical order, making it a work of easy comprehension and

great utility. And the Publishers feel confident that the information they impart is as accurate and reliable as a perfect system, long experience, and human hands and brains can make it.

A FEW POINTS IN USING THE COPARTNERSHIP
DIRECTORY.

1st. Its arrangement is strictly alphabetical.

2d. The word "(dissolved)" after a name denotes that this particular name appeared in the General Directory of 1889, and the dissolution has occurred since May 1, 1889.

3d. The words "(no inf.)" after a name signify that the firm or corporation so quoted was not found at the address printed, and that definite information as to their present location was unobtainable.

4th. The words "(inf. unattainable)" signify that, notwithstanding diligent effort was made on our part, we were unable to secure the desired information.

5th. (Example) Henderson Theodore & Co. (Theodore Henderson jr. & John Barnutz, only). The word "only," in this example, signifies that some person whose name appears in the style of the firm is not at present a member; in this particular case Theodore Henderson, Sr., has retired, although his name appears in the firm.

6th. For Foreign Firms, see page 336. For New Firms, Corrections, etc., too late for insertion in their proper place, see page 335.

Respectfully,
THE TROW CITY DIRECTORY CO.

THE TROW CITY DIRECTORY CO.'S

(FORMERLY WILSON'S)

NEW YORK CITY

COPARTNERSHIP AND CORPORATION

MARCH, 1890. DIRECTORY. VOL. XXXVIII.

For Names of Foreign Houses and their Representatives, and Names Received too Late for Regular Insertion, see last pages.

* NOTE. The words "(no inf.)" after a name signify that the firm or corporation so quoted was not found at the address printed, and that definite information as to their present location was unattainable; the words "(inf. unattainable)" signify that, notwithstanding due effort was made on our part, we were unable to secure the desired information.

THE
NEW WINTER RESORT,
THE MARINE HOTEL, BARBADOS.

This fine House is located at Hastings, about two miles from the Steamship landing of Bridgetown, Barbados, and facing the broad Ocean, which rolls upon the beautiful beach, but 300 feet distant.

The Marine Hotel is built of stone, with walls thirty inches thick, rendering it cool and pleasant, even in the warmest season. Its broad piazzas are fanned by the N. E. trade wind, which blows continuously (but gently) from October to March, from off the tropical seas, which surround this delightful Island.

The building is 360 feet long and 80 feet wide, accommodating 300 persons. The rooms are large, airy, and well ventilated, overlooking the sea, where vessels of all nations are passing to and from all parts of the world, Barbados being the great port of call for the shipping of the Western Hemisphere.

CONNECTING FOR WEST INDIES, CENTRAL AMERICA, ETC.

Para, Maranham, Pernambuco, Bahia, Rio de Janeiro and Santos;

Connecting for Paranagua, Antonina, Santa Catharina, Rio Grande do Sul, Pelotas, Porto Alegre,

MONTEVIDEO AND BUENOS AYRES.

In point of climate and varied scenery no other trip can approach this. After a few days out from the North American coast it is unusual to have any but clear, balmy weather, and smooth water all the way. The immense advantages of this trip to those seeking health are therefore apparent.

 This is the ONLY Steamship Line CARRYING PASSENGERS from the U. S. to the East Coast of South America.

Dictated to and Transcribed from the Phonograph.

314 Broadway, New York, January 30th, 1890.

Gentlemen:—

As there are many people who do not quite understand the uses of the Phonograph and the Graphophone, it may serve a good purpose if I should say to you that from practical experience I consider these machines of the greatest possible value. For an overworked business man like myself I consider that no greater boon could be furnished, than to have beside him a silent but ever ready receptacle for what he has to dictate or say. I am using one of the Phonographs in my own house, and often when I am pressed with correspondence or with some literary work, I turn to it and dictate what I have to convey to my friends, then bringing the cylinders to the city with me, an expert typewriter interprets their contents. At my side at my business in the city a Graphophone is always ready, and the piles of correspondence which crowd my desk are disposed of in no time at all.

I look forward to the period when one-half the correspondence of the country will be not only dictated to the Phonograph, but absolutely conveyed by cylinders in boxes through the mails from one part of the country to the other.

It will not be long before every hotel will have a half-dozen of these machines into which the guests can talk, and for a mere trifle buy a cylinder, transmit it by mail to his home or to his office.

There is no limit to the use of this useful addenda and instrumentality of business. Like many other things in this age in the line of invention, one can double their capacity for usefulness and achievement. I am glad to be able to bear this testimony of a practical nature to the usefulness of the great device, and to say that this is an entirely voluntary statement of my own.

Yours truly,

ERASTUS WIMAN.
